**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/17/2004 has been entered.

An action on the RCE follows.

The IDS filed on 2/17/2004 which is a duplicate of the one filed 10/14/2003, has been considered. The initialed 1449 is being sent herewith.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The proviso entered in claim 1 indicates halogens at position 4.

Art Unit: 1625

Applicants do not have any description in the specification and no examples directed to having R4 being a halogen and that too in position 4. Hence it is clear that applicants did not have possession of the compounds and hence the proviso is New Matter.

Claim 1, 5, 6 and 8 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for R1 to be a limited no of substituents, does not reasonably provide enablement for any and all these various hetero cyclic groups substituted or unsubstituted!!. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.

In re Wands, 858 F.2d 731, 737, 8 USPQ2d 1400, 1404 (Fed. Cir. 1988).

The scope of R1 and R4 are so large, and there is very little predictability in the art that all these various substituents could be placed in the various positions.

There are no examples in the specifications at the various R4 positions at all. Even the smaller groups such as amino or hydroxy. Thus the applicants have not provided any guidance to include any of the hetero groups.!

### ***Conclusion***

The claims 1, 5-11, 13-16, 29,30 still stand rejected.

Claims 18-28 are found to be allowable.
